#### March 2010

Split of clerk positions:

Progress is still being made. I have a meeting scheduled with Denise Ulberg, Director of Finance at OPI to make sure I have some items in Fund 215 corrected from many years previous. These are like the corrections I made in Fund 115 in the fall of 2005. This is necessary for verification of balances for the split. We have a list of the encumbered year-end purchase orders for the elementary school which we have to close and create Journal Vouchers to address.

Day-to-day:

The auditors came and went. The single finding from last year's audit was corrected (bus lease over 3 years). There was one finding from this year – overstatement of the taxes receivable. It occurred because a journal voucher for the previous year didn't reverse. This caused the overstatement.

#### **Retirement Insurance Buyout**

We made the first payment on the single acceptance.

#### Superintendent/Principal Report

In addition to the items on the Friday Notes:

The antenna tower was taken down on the 11<sup>th</sup>. A temporary antenna for our Internet has been installed on the roof of the gym.

The District required Effectiveness Report has been submitted to OPI. This report along with the Five Year Plan will be read and scored by a committee organized by OPI. The score will be figured in to our Annual Yearly Progress (AYP).

We are currently testing the 10<sup>th</sup> grade students on the CRT. The first round of testing is over and we will be conducting the second round of testing next week. The testing appears to be going much better than last year according to those staff who helped with it in the past. The test is being given in smaller groups. The tests are being spread out over four days and only two hours per day. We are not using the cafeteria for testing this year. The test rooms are regular classrooms in the quiet part of the building. We have more test monitors to encourage better student effort. Students are given food prior to the morning testing. The afternoon testing is shortly after the noon hour. The students are given a longer break between tests and allowed enough time to complete the tests. Letters were sent home to parents to encourage students to make a good effort on the tests. If the students appear to be giving a good effort on the test they will get a reward. Mr. Dempsey is still working on the reward. The new testing schedule is attached.

The math teachers will be trained in using the Acellus math program this April. This is the program the District purchased last year from the International Academy of Science to address math remediation needs. The server was installed last fall and the teachers have used it at YDI and with special education. April was as soon as we could get the Academy of Science to come and provide training. This is part of the plan for improving math performance. Next school year 9<sup>th</sup> grade students will not be able to take a math below algebra 1 unless their 8<sup>th</sup> grade math teacher strongly recommends a lower class. The math committee is reviewing texts that are being used. Math texts were last purchased during the 2009 school year. Attached is the curriculum review schedule submitted with the effectiveness report. The effectiveness report just completed shows that modest improvements were made in both math and reading from 2008 to 2009. The math scores on the CRT improved by about 5.3% and reading by 2.9%.

New grammar texts and reading texts have been selected by the language arts committee. The Spanish text orders are not in but will be included with this year's textbook adoption.

Science was tested last year on the CRT but was not reported for AYP purposes. The scores on science were not what we want. We will not know if the change to the science curriculum was effective. An earth science component was added. Prior to this year the science program did not address Montana Science standard No. 4. This standard is earth science. The standard science course for 9<sup>th</sup> graders in Montana is earth science. Our students were having trouble on the ACT tests with both earth science

and physical science. We now teach physical science with an earth science component. We will not know if this change has addressed our science problem for another year when this year's 9<sup>th</sup> graders take the CRT.

The math and language arts program have released test items that have been given to the teachers. They checked to see if their classes covered these items. If their classes did not, they were to make sure this year 10<sup>th</sup> graders got instruction in the areas. For math this is hard to do because the test items cover simple math to pre calculus.

The District will need to reduce staff next year. After reviewing this I have to recommend that reductions be made in the English and physical education areas. The District offers more options in these areas and has more staff than would be required to meet the state accreditation standards. The least senior English person is Mr. Hesford and the least senior PE staff person is Mr. Forbes. Since we need to reduce two and a half staff and we only need a half time counselor to meet accreditation standards we could RIF Mr. Dempsey to half time. Some feel we could reduce the tech coordinator to save money. However, that would not save general fund money. That position is not now full time and most of that cost is covered by a special REAP funding. If you did not have a technology coordinator, you would have to contract for much of the service you now receive from the coordinator. If your computer system fails to work the District would soon come to a stop.

Dear Staff,

Here is the final CRT schedule. We will be testing in 3 smaller groups in 3 different rooms. AYA will test on their campus with the assistance of Mr. Ekblom. Approximately 6 students will be in the learning center. A student location testing list is attached. The testing is broken into 4 testing days with tests in the mornings on 2 days and tests in the afternoon on 2 days.

Each testing time will have 2 proctors. Cathy Carey, Frank Williams, Shane Dempsey, Dave Hohenthal and Dianne Thompson will be the primary proctors. I will set up a short meeting with the proctors. If your name is listed behind one of the main proctors, you will assist them with the testing. I have tried to have some consistency with locations, so please pay close attention to the room changes. I did not interfere with any teacher prep periods.

I hope the new testing schedule with its shorter test periods, breakfasts, smaller groups, closer proctoring and 2 week period will play a role in raising our test scores. I have tried to accommodate teachers by scheduling morning/afternoon testing and not infringing on prep periods.

It will be important to keep track of missing students, because it is mandatory for all sophomores to take the CRT. If any students miss, I will need to do the make-ups before the testing window end date.

I would like to give a special thanks to Cathy Carey and Frank Williams. They have generously volunteered to assist wherever and whenever needed. Mr. Whealon and I have been discussing several post-test opportunities for the sophomores. I will give you more information once ideas have been confirmed.

With your assistance and flexibility, testing will go smooth.

**Thanks** 

Mr. Dempsey

#### Summary of the Jefferson High School Five Year Plan

The five year plan is based upon nine correlates written by the Montana Office of Public Instruction. These correlates are the pillars of an effective school according to MT OPI. The development of the plan included reviewing and assessing the school's current performance in the areas of these correlates. Any deficient areas would need to be addressed in the goal section of the five year plan.

#### The nine correlates are:

- 1. The school develops and implements a curriculum that is rigorous, intentional, and aligned to state standards.
- 2. The school utilizes multiple evaluation and assessment strategies to continuously monitor and modify instruction to meet student needs and support proficient student work.
- 3. The school's instructional program actively engages all students by using effective, varied, and research-based practices to improve student academic performance.
- 4. The school/district functions as an effective learning community and supports a climate conducive to performance excellence.
- 5. The school/district works with families and community groups to remove barriers to learning in an effort to meet the intellectual, social, career, and developmental needs of students.
- 6. The school/district provides research-based, results driven professional development opportunities for staff and implements performance evaluation procedures in order to improve teaching and learning.
- School/district instructional decisions focus on support for teaching and learning, organizational direction, high performance expectations, creating a learning culture, and developing leadership capacity.
- 8. The organization of the school/district maximizes the use of time, all available space and other resources to maximize teaching and learning and supports high student and staff performance.
- 9. The school/district develops, implements, and evaluates a comprehensive plan that communicates a clear purpose, direction, and action plan focused on teaching and learning.

Upon the review of these correlates the following goals were created to improve student and staff performance to OPI mandates.

- 1. The math scores of the sophomore class will improve 10% in the next year and will be up to NCLB standards by 2014.
- 2. The reading scores of the sophomore class will improve in the next year and will be up to NCLB standards by 2014.
- 3. Staff implementation of IEFA will improve with one department a year until all departments and classes fully implement IEFA.

These goals then have measurable, yearly objectives to achieve within the school and report on in the yearly plan.

Re: Two contracts with same provisions

What we are suggesting is that two identical contracts be signed. One contract signed between B.A.T. and J.H.S. and one between B.A.T. and Boulder Elementary. Each contract would look the same with the same provisions. The only difference between the two would be the signature page. One would have a JHS signature and the other would have a B.E.S. signature. This way, if at some point we need to develop a memorandum of understanding on an issue that affects only one school it would not affect the other school's contract. Each school is an independent legal entity. JHS should not be a signatory to the Boulder Elementary contract. Boulder Elementary should not be a signatory to JHS's contract. Often one union will have contracts with different employers. Each school is a separate employer. If one employer violates a provision of their contract the grievance should be against that employer, not both employers.

Re: Two contracts with same provisions

The Board is suggesting that two identical contracts be signed. One contract signed between B.A.T. and J.H.S. and one between B.A.T. and Boulder Elementary. Each contract would look the same with the same provisions. The only difference between the two would be the signature page. One would have a JHS signature and the other would have a B.E.S. signature. The language of the 2000 unit determination finding would of course be in effect and honored. If at some point we need to develop a memorandum of understanding on an issue that affects only one school it would not affect the other school's contract. Each school is an independent legal entity. JHS should not be a signatory to the Boulder Elementary contract. Boulder Elementary should not be a signatory to JHS's contract. Often one union will have contracts with different employers. ## ARMY NATIONAL GUARD ACADEMIC ALL TEAM AWARD

#### Winter 2009-2010 Honorees

The MHSA/Army National Guard Academic All Team Award is given to the top five (5) teams that exhibit outstanding academic achievement during the school year's second quarter of play for that activity and will be awarded to all levels of competition (varsity, junior varsity, sophomore and freshman) to each MHSA schools' classification (AA, A, B and C).

MHSA member schools calculate their students' accumulative average for the award. Winter selections are determined using only students who have participated in second quarter activities including Basketball, Winter Spirit, Drama, Speech and Debate, Swimming and Wrestling
