MONTANA FIFTH JUDICIAL DISTRICT COURT, JEFFERSON COUNTY THE BOULDER MONITOR, Plaintiff, ANSWER TO COMPLAINT AND DEMAND FOR JURY TRIAL JEFFERSON HIGH SCHOOL DISTRICT NO. 1 SCHOOL BOARD, Defendant.

Defendant Jefferson High School District No. 1 School Board (the school district) answers the plaintiff's complaint as follows.

I. PARTIES, VENUE AND JURISDICTION

1. The school district admits the allegations contained in paragraph 1 of the plaintiff's complaint.

in which the Boulder Monitor bashes the school district. The school district respectfully requests that the court strike the allegations set forth in paragraph 6 of the plaintiff's complaint.

7. Answering the allegations contained in paragraph 7 of the plaintiff's complaint, the school district admits that, in April of 2012, it appointed a committee to deal with the issue of advertising in the plaintiff's newspaper. The school district denies that some committee members discussed the matter via email. The school district affirmatively asserts that the district clerk called a board member to inform him that the cost of the advertising was not \$300-\$350 (which was the price the owner/editor of the Boulder Monitor told the school board), but rather it was \$800. Thereafter, the board member e-mailed the district clerk to inform her not to place the advertisement and to send any applications she had for the position to the hiring committee so it could bring its recommendations to the full board. The e-mail ended up getting forwarded to other board members.

Pursuant to Rule 12(f), M.R.Civ.P., The school district moves to strike the clause in the second sentence which contains allegations about communications between the school district and its attorney on the ground that they are scandalous matters. The communications are protected by the attorney-client privilege which the school district has not voluntarily waived. The school district respectfully

advertised at \$60,000, but there was only \$55,000 in the budget for them) and not to actual personnel matters.

The school district denies that the Boulder Monitor would have sent a reporter to attend the meeting had it been noticed as a meeting of the entire school board based upon a lack of information and belief and denies that it was a meeting of the entire school board.

- 10. Answering the allegations contained in paragraph 10 of the plaintiff's complaint, the school district denies there were any minutes of the July 13, 2012, committee meeting. The school district affirmatively asserts that one of the committee members e-mailed her notes from the meeting to everyone who attended the committee meeting to make sure the notes were accurate before they were sent to the school board as a committee report.
- allegations contained in paragraph 11 of the plaintiff's complaint because they are immaterial, impertinent, and scandalous. The grounds for this motion are that the allegations are allegations about a letter from the County Attorney in which he expressed opinions on matters without having all of the facts necessary to formulate accurate opinions. Such opinions are immaterial and impertinent to the plaintiff's complaint and are not appropriate allegations for a complaint. The

- 16. Answering the allegations contained in paragraph 16 of the plaintiff's complaint, the school district denies that the July 13, 2012, committee meeting constituted a quorum of the school board, denies that the committee meeting was anything other than a committee meeting, admits that the committee meeting was properly noticed as a committee meeting, and denies that the notice did not accurately or completely alert the public to the matters to be discussed.
- 17. Answering the allegations contained in paragraph 17 of the plaintiff's complaint, the school district denies that the July 13, 2012, committee meeting was anything other than a committee meeting and denies that it violated any laws. The plaintiff does not allege that any specific decisions were made at the committee meeting, and the school district denies that any were made, and therefore, there are no decisions that can be voided. The school district denies the remainder of the allegations based upon a lack of information and belief.
- 18. The school district denies the allegations contained in paragraph 18 of the plaintiff's complaint.

IV. COUNT TWO-VIOLATION OF RIGHT TO PARTICIPATE

- 19. The school district reasserts its responses to paragraphs 1-18 above.
- 20. Answering the allegations contained in paragraph 20 of the plaintiff's complaint, the school district admits that the allegations approximately paraphrase

28. Paragraph 28 of the plaintiff's complaint does not contain an allegation of fact to which the school district can respond; but rather, it is a prayer for relief, which the school district requests be denied.

GENERAL DENIAL

Except as to those matters specifically admitted, the school district denies each and every matter and thing contained in the plaintiff's complaint.

PRAYER FOR RELIEF

WHEREFORE, Defendant school district prays for relief as follows:

- 1. That the District Court dismiss the Boulder Monitor's complaint with prejudice; and

ANNOUNCEMENT AND PUBLIC COMMENT

CURRENT BOARD MEETING AGENDA TEXT:

(This appears within the agenda itself as Item B)

- B. Announcements and Public Comment. THE BOARD WELCOMES AND ENCOURAGES PUBLIC COMMENT. ANYONE WISHING TO ADDRESS THE BOARD IS ENCOURAGED TO DO SO WITH THESE STIPULATIONS:
- 1. The Board may limit the amount of time for comment if they become extensive.
- 2. If the speaker begins to infringe on the right to privacy of another, the Board may interrupt and end the comments on that issue.
- 3. Even if the comments are entirely appropriate, the Board will not take any action on them at this meeting. To insure that others who want to address the same issue have the opportunity to do so, the item may be placed on the agenda of a future meeting.

COMMON ITEMS/PRACTICES FROM OTHER DISTRICTS

Many districts use much of our same language but there are a few things that were frequently mentioned that they do that we do not:

- At opening of meeting, chair calls for members of the audience that wish to address the board to sign in on a sheet that requests their name and the topic on which they will be speaking. Chair calls on people in the order they signed the sheet.
- Include something regarding "abusive" or "obscene" language not being allowed
- Include that comments are not allowed about any student, staff member or member of the public, the Board will not hear comments on contested cases or adjudicative proceedings.
- Some note that the Board will not respond to public comments
- It seems they may split their public comment info in to a notice at top of agenda that the public comment section is for those items not on the agenda and the public may be allowed to comment on agenda items at their point on the agenda and the actual time for public comment is further down on the agenda.
- -Also notice that some districts clearly mark agenda items as "Action" or "Information" or combo. This gives the public extra notice if a topic will be acted upon on that meeting or just discussed.

- Helps the board meeting stay on track by creating a little more structure around receiving comments from the public as opposed to having broad discussions between everyone in the audience and the board.
- Makes clear that we will not hear comments on students, staff, or any privacy issue.
- Improves notice to the public on what actions are planned for the meeting versus just info.
- Gets good information out to the public about public comment

Western States Insurance Agency, Inc.

Program Administrator

September 19, 2012

Jefferson High School Jim Whealon PO Box 838 Boulder, MT 59632

Dear Jim,

Thank you for your continued support of our Montana Schools Property & Liability Insurance Plan.

Enclosed you will find your renewal certificate for 7/1/12 to 7/1/13 policy term. This renewal certificate includes the property, liability, auto, school board liability and boiler coverage. Please insert these pages into the three ring binder previously provided.

I'll soon be traveling around the state conducting site surveys and regional seminars along with Lynn Mavencamp and our Risk Manager, Brodie Loushin. I look forward to visiting with you about your insurance coverage. Please feel free to contact me should you have any questions regarding your school insurance.

Thanks again for your support.

Sincerely,

Dave Pillatzke

3. MAINTENANCE DEDUCTIBLE

Property & Inland Marine	\$1,000
Auto Physical Damage	\$500
School Board Legal Liability	\$1,000
Crime & Employee Dishonesty	\$1,000
Boiler & Machinery	\$1,000

The above maintenance deductibles shall apply per loss

4. TERRITORIAL SCOPE

Liability insurance coverage applies worldwide.

Property/Crime/Boiler and Machinery coverage applies to property insured at any location listed in the schedule of values on file with the insurance carrier.

5. POLICY PERIOD

FROM: 07-01-12 to 07-01-13

Both days at 12:01 a.m. Standard Time Insured's address shown on page 1.

6. COVERAGE FORMS AND DOCUMENTS

Coverage for the 7-1-12 to 7-1-13 policy term utilizes the same form documents as the coverage for the 7-1-11 to 7-1-12 policy period. A sample of the current insurance coverage forms and documents are available for review upon request.

WESTERN STATES INSURANCE ACTING AS PROGRAM ADMINISTRATOR 7.

Western States Insurance Agency Inc. (WSI) acts as the Third Party Administrator for the Montana Schools Property and Liability Insurance Plan. WSI receives a fee for this service. This fee is included in the premium paid by each member and disclosure of this fee is available upon request.

PLAN DISCLAIMER

CERTAIN PROVISIONS IN THIS POLICY RESTRICT COVERAGE. THE ENTIRE POLICY SHOULD BE READ CAREFULLY TO DETERMINE YOUR RIGHTS AND DUTIES AND TO DETERMINE WHAT IS AND IS NOT COVERED.

COVERAGE UNDER SCHOOL BOARD LEGAL LIABILITY IS AFFORDED ON A CLAIM MADE BASIS AND CONTAINS PROVISIONS, WHICH MAY BE DIFFERENT FROM THOSE OF OTHER COVERAGES OF THIS POLICY. Dear Jefferson High School Board,

I am writing to inform you of my resignation as the JHS boys' basketball coach, effective immediately. I have enjoyed the opportunity to teach and coach these young men and feel like the program is poised to have a successful run. Unfortunately, my employment situation will not enable me to devote the required hours to be successful in this position.

I am very disappointed with the actions that the board has taken over the past year. Individuals were quick to jump to incorrect conclusions, yet unwilling to admit mistakes or accept responsibility when the facts came to light. The gross unprofessionalism of several board members has embarrassed the community and put future mill levy elections in serious jeopardy.

I was lured to town under good faith to help bolster a sinking math program and take over a team that nobody believed in. I worked tirelessly for three years and am proud of our success on both fronts. I leave both programs in much better shape than I received them in. I can walk out the door and hold my head high as I walk down the streets of our communities, but I doubt many of you will be able to do the same.

I would like to thank Dan Sturdevant for his support and encouragement as our athletic director and my players for their excellent conduct and hard work during my tenure.

Sincerely,

Rex Sonsteng

Michelle LeTexier #1 Earth Angel Road Basin, Mt 59631

Jefferson High Board of Trustees Jefferson High School Boulder, Mt 59632

Honorable members,

My name is Michelle LeTexier and I would like to apply for the vacated position of Trustee to represent the Basin School District.

I have been through two courses on Open Meeting Laws sponsored by the Montana School Board Association. I served on the policy committee and negotiations previously, I was trained in interest based bargaining.

I have a vested interest in the education of the children who attend Jefferson High School.

I have been a taxpayer in this district for many years. I understand the fincinal hardship that the closure of Mt Tunnels has caused the districts of this school district.

I would like to thank all of you for your commitment to Jefferson High and the students of our district.

Sincerely,

Michelle LeTexier

To Whom It May Concern,

My name is Brett Nance. I live in Basin, Montana. The reason for this letter is to express my interest in the vacant position on the Jefferson High School Board of Trustees.

I am a concerned parent, not only for my children, but for the children of my community and the surrounding communities that attend Jefferson High School. I believe that I would bring fresh ideas and a new perspective to the Jefferson High School Board of Trustees.

A position on the Jefferson High School Board of Trustees is not one to be taken lightly. It comes with much responsibility as well as commitment. A commitment that I am willing to take, should you consider me for the position of a Jefferson High School Trustee Board Member. Thank you.

Sincerely,

Brett Nance

Basin, Montana

As we enter our fourth year, I am still working with only six teachers. Each year students come to me asking how they can be part of the program. My goal has, and continues to be, involving more teachers and more students in this authentic learning opportunity. The program at JHS has been incredibly successful; in fact, OPI has referred teachers from all over the state to us. Yet, I feel I have failed in recruiting more teachers. I will continue to recruit, invite and entice more of our faculty into the program.

Service Learning involves critical thinking skills, builds self-esteem, teaches team building skills, develops interpersonal and leadership skills, promotes empathy and re-enforces classroom learning. Students learn by doing and teaching. They love it!

2011-12 Service Learning hours: 2152.

Fifteen of our seniors earned between 3 and 4 ½ credits this year, alone. Forty-six others earned between 15-59 hours. We require 45 hours for ½ credit. We have become a visible entity in all three area grade and junior high schools.

We have been the recipient of a great deal of positive publicity in both the Boulder Monitor, the Independent Record, KTVH and all five radio stations in Helena.

I am very grateful to have had the chance to bring such a positive program to our area schools. I have enjoyed the relationships I have built with administrators and teachers. This has been a challenging and rewarding project for me.

2012-13 School Year

The following teachers have agreed to offer S-L opportunities to their classes.

Mrs. Piccolo, Mr. Biehler, Mr. Bruce, Mrs. Humphry, Mr. McCauley, Mrs. Williams. Projects will range from finance to global climate change. We have classes scheduled for eight months of the school year.

I'd also like to commend Mr. Sturdevant for his help in arranging busses for our projects.

Final Draft Principal Report/AD Report

daryl mikesell <daryl.mikesell@jhs.k12.mt.us> To: lorie carey <lorie.carey@jhs.k12.mt.us>

Fri, Oct 5, 2012 at 9:55 AM

Lorie,

Here is the final draft. I am not adding anything else!

Thanks,

Activities Director Report:

- Resignations of Coaching Staff:
 - Rex Sonsteng resigned as JHS Boy's Head Basketball coach effective immediately. (Letter
 - Anthony Connole resigned as JHS Girl's Assistant Basketball coach effective immediately. (Email Attached)
 - Anthony Connole resigned as JHS Assistant Golf coach effective immediately. (Email Attached)
- Hiring of new staff:
 - We need authority to advertise for the following coaching vacancies: (Advertisements will be in the Helena IR, Boulder Monitor, and OPI website)
 - Head Boys Basketball- until filled
 - Assistant Girl's Basketball- until filled
 - Head Track Coach- until filled
 - Assistant Track Coach (2)- until filled
 - Head Tennis Coach- until filled
 - Assistant Tennis- until filled
 - Assistant Golf- until filled
 - Assistant Tennis
 - Head Tennis
 - Head Dance Coach
- Activity Pass Discussion- At the recent Southern B Divisional Meeting, Dan and I inquired to the costs of other district's activities passes. It was determined that JHS was below all the other districts. We have discussed the possibility of doing any or all of the following options:
 - 1. Increase the cost of Activity Passes to \$25 for students, \$40 for Adults, and \$100 for families in the 2013-2014 school year. Then create a schedule of pricing for years to come to cover increases in costs of utilities, officials, and misc activities expenses (i.e. Shipping costs of merchandise ordered.)
 - 2. Charge a percentage (TBD) of the profit from the concessions to contribute to the activities
 - 3. Discuss the creation of a rotation of school sponsored activities to host concessions throughout the school year. The profit from all events would be compiled and divided amongst organizations at the conclusion of each sports season (Fall, Winter, Spring) to organizations depending on the

We would like to introduce you to Ones Li

instruction (OPI) as your School Ing

and offer opportunity for credit recovery for those that do not pass a course.

- In addition to the summer school and peer tutoring, the grant requests we cover three criteria:

As Advisors make only two on site visitations through the year, every effort is made to ensure that the school improvement process is one that is determined, relected, prioritized and implemented by your school with the

- Find the "why" students are not graduating
- Maximize the amount of students filling out a FASFA form
- Propose a college-readiness project that has an impact in the community.
- Should the grant be awarded a team of teachers and students will possibly be assembled to address these three criteria.

Daryl Mikesell Principal/Activities Director Jefferson High School Boulder, MT 59632

2012-2013 Annual ESEA Title I, Part D, Subpart 2 **Local Delinquent Program** Application

Due date: Postmarked no later than September 28, 2012

Return the original to: Heather Denny Division of Educational Opportunity and Equity Office of Public Instruction PO Box 202501 Helena, MT 59620-2501

Project Year: July 1, 2012- September 30, 2013

PURPOSE

The purpose of this subpart is to support the operation of local education agency (LEA) programs which involve collaboration with locally operated correctional facilities to:

Carry out high quality education programs to prepare children and youth for secondary school completion, training and employment, or for further education.

2. Provide activities to facilitate the transition of such children and youth from the correctional program to further education or employment; and

3. Operate dropout prevention programs in local schools for children and youth at risk of dropping out of school and youth returning from correctional facilities.

Applicant District Name: <u>Jefferson High School District #1</u>
County Name: <u>Jefferson</u> County No.: <u>22</u> LE: <u>0457</u>
As ESEA Title I Authorized Representative for the above project, I wish to apply for the following in delinquent funds:
FY 2013 Funds \$ _48,708
Signature Information: The Board of Trustees submitted a Common Assurances form to the Office of Public Instruction for the 2012-13 school year and no circumstances affecting the validity of the assurances have changed since its submittal. Further, the Board of Trustees has certified that the Common Assurances for Federal Programs and Specific Program Assurances for those programs in which this district/agency participates are accepted as the basic conditions for local participation and assistance in the operation of the projects/programs listed above. The Board of Trustees approves the district application for participation in this federal program. Signature Designated Authorized Representative for ESEA Consolidated Program Application Superintendent Principal (If there is no Superintendent) County Superintendent (if there is no Superintendent or Principal)
NOTE: When personnel changes occur in the positions listed above, the new person will become the Designated Authorized Representative.

Note: Your district has participated for the number of years indicated below. Your district should be collecting data appropriate to the paragraph above, even if the district has not participated for three years.

Applicant: Jefferson High School Dist.#1 Number of Years Receiving Assistance: 4

Each LEA project, correctional facility or delinquent institution having received assistance under the subpart for three years, must complete the additional information provided, demonstrating compliance with above criteria. Please submit the required information with the appropriate FINAL PROGRAM REPORT, for your current Local Delinquent Program, due upon request during the Fall/Winter of 2012.

C. Title I Program Information

Respond in narrative form to the following statements regarding the program to be operated by the LEA at the institutions and agencies that will be served by the Title I program. Answers should address the comprehensive Title I services provided by the district to all qualifying students, but may include detailed information regarding the specific services provided at individual facilities.

- Describe the types of facilities where the LEA will provide services to children and youth under the Title I, Part D program.
- 2. Describe the formal agreements, regarding the Title I, Part D program and services, between the LEA and the facilities where services will be provided.
- Describe how the LEA will coordinate with facilities working with delinquent children and youth to ensure that such children and youth participate in an education program that is comparable to one operating in the local school such youth would attend.
- 4. Describe in detail the Title I program and services to be provided by the LEA to children and youth placed in local correctional facilities, youth involved with the juvenile justice system, and other at-risk youth. (*Include a detailed description of the use of all funds.*)
- 5. Describe the characteristics (including learning difficulties, substance abuse problems, and other social needs) of the children and youth who will be returning from correctional facilities and other at-risk children and youth expected to be served by the program, and a description of how the LEA will coordinate existing educational programs to meet the unique educational needs of such children and youth.
- 6. Describe how the LEA will coordinate with existing social, health, and other services to meet the needs of students returning from correctional facilities, at-risk children or youth and other participating children or youth, including prenatal health care and nutrition services related to the health of the parent and the child or youth, parenting and child development classes, child care, targeted re-entry and outreach programs, referrals to community resources, and scheduling flexibility.
- Describe any partnerships with local businesses to develop training, curriculum-based youth entrepreneurship education, and mentoring services for participating students.

offer additional opportunities for the YDI students to take elective classes. The Montana Digital Academe is available to all YDI students to take classes not in the normal offering. When the sponsoring state agency determines that the YDI student is ready to return to their home school system, JHS forwards the student's educational records to the receiving school the day the student is released from YDI by the Montana Court System or Montana Family Services. If the student meets graduation requirements, they receive a JHS diploma and career planning assistance to move on to post secondary education or employment.

- The Title I Part D services provided under this grant will include properly certified and endorsed teachers in language arts, math, science, and social science. In addition, the summer program will include an elective in either a vocational arts or performing arts area to meet State graduation requirements for these students at risk of not graduating. All classes are taught using technology and the program is one-to-one computing compatible. Each YDI student is assigned an individual computer. Each student is placed based upon his or her individual educational attainment. The International Academe of Science's computer based Acellus programs will be used in all area this school year. In past years, only Acellus Math was available. Now that Acellus has programs in other subject areas, they will be added to the digital curriculum. The Montana Digital Academe is also available to YDI students to expand their curriculum choices. Four years ago, Net Books computers were purchased for YDI with Title I Part D funds. Those computers are becoming outdated and can not run the newer software now being used in education. The computers are at the end-of-life stage for computers. They need to be replaced with faster and more powerful devices. The budget provides: \$30,126 for Title I D teacher services, \$4,874 for benefits, \$394 for teacher's daily travel to YDI and back, \$13,314 to replacement and upgrade outdated student Net Book computers (\$475.50 per device for 28 computers). YDI's State approved student capacity is 28. There are no administrative charges on this grant. Special education services are not charged to this grant nor are internet services. However, both are provided to the students at YDI at no cost to Title I Part D. Guidance services and other educational services provided students in high school are provided at no cost as well
- 5. The YDI students are out-of-district at-risk students who have been placed at YDI for therapeutic group home services by the Montana Court System or Montana Family Services. JHS provides educational services to these students because they are school age youth temporarily residing within our school district boundaries. Almost all have learning difficulties, are behind in credits, and at risk of not graduating. Many have histories of drug and substance abuse and involvement with the juvenile justice system. A large percentage of the students have had or are currently under an IEP. Because the students are involuntarily placed by state agencies, they are considered flight risks and are confined to the institutional grounds and buildings. Therefore, they can not be served in our school building. They have to be served by our educational staff in their residential facility. Once the students show up at YDI their former school of attendance sends their most recent school records to JHS and they are enrolled. Upon completion of their stay at YDI, student school records are forwarded to their home district. JHS coordinates with the sending school district by picking the student up where the student is in the educational process and moving them forward toward the Montana graduation standards and JHS's graduation standards. If a student meets JHS's graduation standards while at YDI, that student is granted a JHS diploma. If a student has a special education IEP and meets the IEP requirements for graduation while at YDI, a JHS diploma is granted that student.
- 6. JHS coordinates with the Montana Juvenile Court System, Montana Family Services, Montana

- 11. Both JHS and YDI work very closely with the students' probation officers while they are in YDI and when they are getting ready to transition back to their home community school. School records are transferred back to the receiving school. This facilitates the granting of credits earned while at YDI. It increases the chances of high school graduation or a GED for officer during student. JHS and YDI staff maintain communications with the student's probation officer during their stay at YDI and upon discharge to their home communities.
- 12. JHS reviews each new YDI student for a current or past IEP. If the student has an IEP, the JHS instructional staff are made aware of it. If the student has had an IEP in the past but, does not have a current IEP, the JHS special education teacher, assigned to YDI, will review why there is not a current IEP. She will call for testing, from the school psychologist, and the convening of an IEP team, if it is necessary. Parents of the student for whom an IEP is being considered will be contacted by the JHS special education teacher. A meeting will be scheduled. When the student leaves YDI, the students records, including special education records, are forwarded to their receiving school. YDI has custody of the student and YDI staff, with a need-to-know, will be advised of the IEP.
- 13. The student's sponsoring agency, which sent them to YDI, and their receiving school are both contacted by JHS's staff, regarding the educational needs of the student. If participation in a regular public school is not possible, JHS staff will recommend an alternative placement to their sponsoring agency and/or their parents. Although high school graduation is perfected, referral to a GED program, when necessary or advisable, is also used. This is based upon individual student needs. Students get career planning as part of their educational program at YDI. This is provided by JHS teachers.

Level of Determination Under the Individuals with Disabilities Education Act (IDEA)

Requirements

Thank you for supporting Montana's efforts in meeting the federal requirements established by the Individuals with Disabilities Education Act of 2004 (IDEA). We appreciate your commitment and continued efforts to improve outcomes for students with disabilities.

As required by the IDEA, each state must have in place a State Performance Plan (SPP) that identifies the state's efforts to improve outcomes for students with disabilities. The SPP consists of 20 required IDEA compliance and performance indicators, and their subparts, as established by the U.S. Department of Education, Office of Special Education Programs (OSEP).

In February 2012, the Office of Public Instruction (OPI) submitted its Annual Performance Report (APR) for Federal Fiscal Year 2011 (school year 2010-2011) to the U.S. Department of Education, Office of Special Education Programs. Following review of each state's Annual Performance Report and State Performance Plan, and consistent with requirements under IDEA, the OSEP was required to make a "determination" regarding each state's status with the requirements of the IDEA. The four determination categories, as established by the IDEA, are:

- Meets Requirements
- Needs Assistance
- Needs Intervention
- Needs Substantial Intervention

State-Level Determination

In its letter of June 28, 2012, to the Office of Public Instruction, the OSEP reported that Montana was placed in the **Needs Assistance** category.

Local Education Agency: Determination Requirements

In accord with 616(a)(1)(C)(i) and 34 CFR 300.600 of IDEA and its implementing regulations, states are required to make "determinations" annually under Section 616(d) on the performance of local education agencies (LEAs). In making its determinations, the state must use the same four determination categories as used by the Office of Special Education Programs.

For the <u>2010-2011</u> school year, states are required to make determinations of each school district's performance based on the following:

The Montana Office of Public Instruction provides vision, advocacy, support, and leadership for schools and communities to ensure that all students meet today's challenges and tomorrow's opportunities.

All districts should continue to implement procedures to help ensure the district submits all required data to the OPI within required timelines, that all findings of noncompliance are corrected within a one-year timeline and that accounting of funds and expenditures for special education are made consistent with the OPI accounting requirements and federal and state rules.

Please be aware that consistent with the requirements under IDEA, review of school district data and determinations must be made <u>annually.</u> The OPI will be conducting a review of your district's 2011-2012 data and reporting the results of that review to you in the summer of 2013.

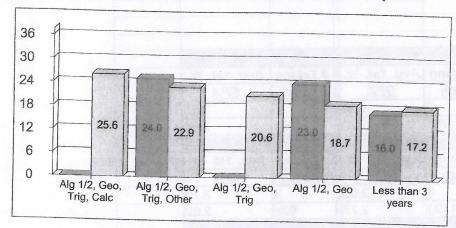

If you have questions regarding your level of determination or the determination process, please contact Dick Trerise, Part B Manager, at (406) 444-4429.

success in first year college coursework. Table 1 shows the five-year frend of your ACT-tested graduates

College Readiness Letter for: JEFFERSON HIGH SCHOOL DIST 1

ACT Research has shown that it is the rigor of coursework - rather than simply the number of core courses - that has the greatest in number of cor

Figure 2. Average ACT Mathematics Scores by Course Sequence

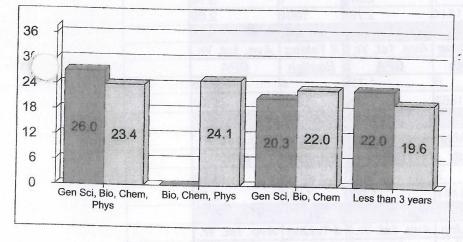

Value Added by Mathematics Courses

Students who take a minimum of Algebra 1, Algebra 2, and Geometry typically achieve higher ACT Mathematics scores than students who take less than three years of mathematics. In addition, students who take more advanced mathematics courses substantially increase their ACT Mathematics score.

Your District State

Figure 3. Average ACT Science Scores by Course Sequence

Value Added by Science Courses

Students taking Biology and Chemistry in combination with Physics typically achieve higher ACT Science scores than students taking less than three years of science courses.

Your District

In order to ensure that all students are ready for college and work, an overview of vital action steps is provided.

College Readiness for All: An Action Plan for Schools and Districts

- Create a Common Focus. Establish collaborative partnerships with local and state postsecondary institutions to come to a shared understanding of what students need to know for college and workplace readiness. Use ACT's College Readiness Standards and the ACT as a common language to define readiness.
 Establish High Expectations for All Create a sale of the language to define readiness.
- Establish High Expectations for All. Create a school culture that identifies and communicates the need for all students to meet or exceed College Readiness Benchmark Scores.
 Require a Rigorous Curriculum Povious and a school culture that identifies and communicates the need for all
- 3. Require a Rigorous Curriculum. Review and evaluate the rigor and alignment of courses offered and required in your school in English, mathematics, and science to ensure that the foundational skills leading to readiness for college-level work are taught, reaffirmed, and articulated across courses.
- Provide Student Counseling. Engage all students in early college and career awareness, help them to set high aspirations, and ensure that they plan a rigorous high school coursework program.
- 5. Measure and Evaluate Progress. Monitor and measure every student's progress early and often using college readiness assessments like EXPLORE, PLAN and the ACT. Make timely interventions with those students who are not making adequate progress in meeting college readiness standards.

To learn more about these recommended action steps and ACT programs that will help improve college readiness for your students, contact your ACT Regional Director at 303-337-3273 or email denver@act.org.

Tue, Aug 28, 2012 at 4:26 PM

Dear Jim,

The 2012 Resolutions passed by the MTSBA Delegate Assembly can be found at the link below. These Resolutions will come before the general membership meeting at the Annual Business meeting during MCEL -- October 17-19 in Billings. There will also be a time for questions about the resolutions and a discussion of them during the MTSBA Regional meetings that will take place at the end of the Back-to-School Legal Primers being held at across the state as listed below. We encourage boards to review the Resolutions at a board meeting or prior to attending a September workshop and MCEL.

Resolutions Adopted by the 2012 MTSBA Delegate Assembly

Regards,

Bob Vogel

MTSBA Director of Governmental Relations

bvogel@mtsba.org

- 4. MTSBA shall facilitate the Kmaking processes, emphasizing careful, deliberate and comprehensive analysis of issues, the use of open dialogue (the purpose of which is to inform) prior to deliberation (the purpose of which is to dec members want, need and prefer, and consideration of the ethical implications of our
 - members that might be caused by recommendations made by the K-12 Vision Group.
- 5. MTSBA shall seek to collaborate with and inform legislators from both political parties as well as key representatives of the offices of the Governor, the Board of Public Education and the Superintendent of Public Instruction of the progress and ongoing work of the K-12 Vision Group to ensure open communications and the availability of legislative and executive branch perspectives regarding such work.
- 6. MTSBA shall start to engage other external stakeholders outside of public education circles to increase awareness of the work of the K-12 Vision Group and to identify common interests and goals and opportunities for collaboration. There should be no r a process for highlighting
 - broad public awareness of the work of the K-12 Vision Group and emphasizing an open invitation for the public to weigh in on such work. This might be accomplished, for example, through a combination of public opinion polling, facilitated community dialogue, outreach to business, higher education and other community leaders and public awareness campaigns. The key will be to ensure that we generate broad public support for the recommendations of the K-12 Vision Group over time.
- 7. The work of the K-12 Vision Group shall be focused on the following:
 - a. A global look at the current funding formula for schools with an eye toward determining how the formula could be simplified, made more responsive to need, equitable and adequate to allow schools throughout the state to provide the basic system of free quality schools as that term is defined in 20-9-309, MCA. Specifics to be reviewed as part of the global look at the formula shall include:
 - Whether the formula sufficiently promotes local control. If not, recommendations should be developed regarding how the formula could be improved to better vest authority in the elected trustees to make financial decisions.
 - ii. Review of weighting adjustments in current formula and identify possible enhancements. This inquiry shall include analysis of what other states do to account for economies of scale and address needs of school systems in different circumstances.
 - iii. Whether the current formula is sufficiently responsive to the educationally-relevant factors identified in 20-9-309, MCA, including:
 - 1. the number of students in a district;
 - 2. the needs of isolated schools with low population density;
 - 3. the needs of urban schools with high population density;
 - the needs of students with special needs, such as a child with a disability, an at-risk student, a student with limited English

after the first 250 elementary, 450 middle and 800 high school pupils in the district, regardless of the number of students by school. Second and subsequent entitlements to be rounded to the nearest tenth (e.g. one tenth for every 25 elementary, 45 middle or 80 high).

The amendments to this paragraph are contingent upon the consent of MREA, SAM, MASBO, and the K-12 Vision Group and should consensus not be reached, the language in this paragraph shall revert to the original language.

- 3. That MTSBA, MREA, SAM and MASBO pursue legislation to ensure that schools receive increases
 - of legislative session, rather than "in lieu of under current law.
- 4. That MTSBA, MREA, SAM and MASBO continue to seek increased local flexibility in administering financial business of the school district.

Designation: Action

Part III: Other Resolutions Proposed by MTSBA Members During the Call for Resolutions from Spring 2012:

Resolution Number 3 Local Funding for IDEA

Be It Resolved that MTSBA pursue legislation to allow school districts to impose a permissive increase in the tuition levy to pay for the costs of providing students qualified under the Individuals with Disabilities Act (IDEA) with a Free Appropriate Public Education (FAPE) in the Least Restrictive Environment (LRE) possible pursuant to Program (IEP). The legislation should be drafted to allow a district to impose a levy to pay for

state special education aid, federal education aid, and the regular education costs of educating -ANB amount and prorated portion of the

THE PROBLEM.

Small rural schools face financial hardship and sometimes inequitable educational decisions when high-needs / special education students absorb disproportionate resources from the General Fund. This situation may arise if such (un-anticipated) students enroll part way through the academic year, in which case a budget amendment to use (and thereby deplete) General Fund Reserves may be the only option available to a school district to provide the mandated services. In many cases the allowable General Funds Reserves (limited to 10% of the budget) will not cover, say, the cost of a full-time aide.

the potential for abuse (through mis-coding for example) given the proposed permissive levy revenue basis for the fund.

Designation: Action

Resolution Number 4 Capital Facility Needs

Be it resolved that MTSBA pursue continued and expanded state funding for capital facility needs in districts across the state of Montana to match and leverage local support for maintaining quality, safe, healthy, and educationally appropriate school facilities that meet the needs of 21st Century learning. The resolution should include support for technology costs within the definition of capital facility needs. The resolution should encourage energy efficiency, quality materials, and the general concept of sustainability. In addition, we encourage state support to match local building reserves so that school districts will be able to maintain facilities.

We encourage state support maintaining local control, and ensuring full funding for programs such as the state Facility Guaranteed Mill per ANB funding, as well as new initiatives that might be developed in the future.

We believe that this resolution is important to the needs of students in districts across the state of Montana.

Designation: Action

Resolution Number 5 Alignment of Accreditation Standards and Funding

Be it resolved that MTSBA work to regularly monitor changes in accreditation standards and work to ensure appropriate alignment between the accreditation standards adopted by the Board of Public Education and funding appropriated by the Montana Legislature to assist school districts in implementing such standards. MTSBA shall pursue such alignment either through opposition to unfunded or underfunded changes or through pursuit of funding necessary to allow school districts to comply with such standards, including but not limited to recent and pending changes to chapter 55 of the

recent adoption of common core standards.

Designation: Action

Resolution Number 6 Technology Acquisition and Depreciation Fund

BE IT RESOLVED that MTSBA seek changes in the current statutes related to the Technology acquisition and depreciation fund that would better reflect the variety of

The law scheduled to become effective July 1, 2013 will not work as intended, as a school district has to receive \$0 in oil and natural gas production taxes to become eligible for such funds. If a district receives even \$1, it is not eligible under the law scheduled to become effective July 1, 2013.

The city of Circle is experiencing a housing shortage due to the affect of neighboring counties oil and gas exploration and production. We are seeing people moving to Circle because they cannot find anything to rent in eastern Montana or western North Dakota.

our incoming teachers. Senate Bill 329, as it is written does not help impacted neighboring counties as I believe it was intended. It is not easy to attract teachers to come to a city that is in a rural or remote area, but is impossible when there is no housing available. The percent of money that would be available generated from oil and natural gas tax revenue would allow schools to build much needed housing for staff.

Designation: Action

Resolution Number 8 Bonding Authority in K-12 School Districts

Be it resolved that MTSBA pursue legislative and other solutions to ensure that K-12 school districts have the full flexibility in allocating all or any portion of their bonding capacity to any building project of the district, regardless of the relative percentage of such expenditures used on either elementary or high school buildings.

Bonding Capacity Revisited

WHEREAS, MTSBA General Assembly on October 16, 2008 passed resolution #11 to pursue legislation that would permit local voters to approve a local bond that combines the elementary and high school bonding capacities in a coterminous unified K-12 school district; and

WHEREAS, legislation in the 2009 Montana legislature passed that was designed to accomplish this, sponsored and supported by MTSBA; and

WHEREAS, recent attempts to utilize this legislative change have been unsuccessful;

Background:

Glasgow School District is again looking at various building options to replace an aging Elementary school, which would allow grades 7 and 8 to move out of the High School building, and we were informed by both OPI and our bonding expert consultant that we can only use our high school bonding capacity (based on ANB) for facilities that would be actually used by students in grades 9 - 12, and not to build for lower grades that

or payment from any public fund or monies, or any grant of lands or other property for any sectarian purpose or to aid any church, school, academy, seminary, college, university, or other literary or scientific institution, controlled in whole or in part by any church, sect, or denomination.

Section 8. School district trustees. The supervision and control of schools in each school district shall be vested in a board of trustees to be elected as provided by law.

Designation: Action

Part IV: Carry Over Resolutions from Previous Year

Resolution 10 -- More Efficient and Effective Governance of School Districts

WHEREAS, school districts have learned from experience that there are many areas of statute and rule that do not allow for flexibility or in efficient operations at the local level. School elections, student discipline, and open meeting law are examples of areas of policy that have been reviewed and improved for the benefit of school districts.

WHEREAS, as a matter of equity, school districts who contract for transportation services should be treated the same as districts who own their buses and are exempt from state fuel taxes, and

WHEREAS, School districts should be able to utilize the best available technology and use cost-effective means in meeting the requirement to store records, but currently operate under restrictions imposed by statute and by the Local Government Records Committee.

WHEREAS, the 2011 Legislature passed legislation and provided funding for districts across the state to create operational efficiencies by optimizing resources through regional multidistrict cooperatives/regional resource centers with the intent that districts of all sizes would cooperate together in areas such as, but not limited to, 1) Instruction and Professional Development, 2) Curriculum and Assessment, 3) Support Services; Transportation and Food Services, 4) Facilities and Grounds, 5) Educational Support (Instruction), 6) Extra-Curricular, 7) Technology, and 8) Administration, Personnel, Business & Finance

THEREFORE BE IT RESOLVED that the Montana School Boards Association, in the interest of more efficient and effective governance, the optimization of resources, as well as enhancements to and revival of local control, call on Delegates to engage in discussions at the local board table related to efficiencies, optimization of resources efforts, and identification of implementation barriers to create efficiencies, and bring them to the attention of MTSBA and the legislature for the establishment of appropriate laws to allow districts to become as efficient and effective as possible.

Whereas, elected school boards have a fiduciary responsibility to their communities through their supervision and control of K-12 public education as provided under Article X, Section 8 of the Constitution; and

Whereas, there are a myriad of laws providing a variety of procedures for the handling and distribution of school funds by county officials; and

Whereas, this lack of consistency increases the likelihood of errors and conflicts between county and school officials in the handling and distribution of school funds by county officials; and

Whereas, MTSBA should pursue greater consistency and efficiency in the laws governing the handling and distribution of school funds by county officials;

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

That MTSBA research and prepare a report regarding all circumstances in current law where county officials collect, handle or distribute school funds under current law. MTSBA shall use its research as an advocacy tool and shall distribute a final report to the membership.

That MTSBA pursue legislation that will ensure a consistent, accountable process for the collection, handling and distribution of school funds by county officials and which will ensure that school boards can fulfill their fiduciary responsibility to their communities. Specific measures in such legislation shall include, but shall not be limited to:

A process for ensuring a timely, accurate, electronic accounting and allocation of all school funds held by county officials comparable to the level of services available from private banks and other private financial institutions.

Greater flexibility for school districts in taking control of their finances directly and contracting with private financial institutions for same.

A process whereby school districts are involved in negotiations between taxpayers and the Montana Department of Revenue when settling tax disputes that could affect the tax base of the district.

A process for ensuring that schools are allocated their proportional share by formula rather than by discretion of county officials, including but not limited to the following programs:

Payment in lieu of taxes pursuant to Title 7, Chapter 6, Part 1;

Allocation of forest reserve funds and other federal funds pursuant to Title 17, Chapter 3, Part 2, MCA;

P. O. Box 95 Basin, MT 59631 October 5, 2012

Jefferson High School Board of Trustees

To Whom It May Concern:

Thank you for considering me to fill the vacancy as the Basin representative on the Jefferson High School Board of Trustees. Although I appreciate the opportunity to attend the October 8th board meeting, I would like to withdraw my name as a potential board member representing the Basin School District for the term ending May, 2013. I am encouraged that there are others who are offering to serve the Basin community in this capacity, and feel that there will be other opportunities for me to participate in public service.

Sincerely,

Janice Crawley

Service Learning at JHS

2011-12 was a very successful year for Service learning. We had a total of 123 students

Drama students visited 2+3 grade classrooms talking about bullying and how the problem is involved in learning, mentoring and teaching. shown in Hans Christian Andersen's and the fairy tale "The Ugly Duckling." They presented a scene from the show, in costume, and invited them all to a free matinee in December.

In December those classes attended a matinee of "The Ugly Duckling" and were able to come up on the stage and visit with the cast and crew. These matinees are always a big hit. This performance was especially important as 26 4th grade students, who had seen our matinees during their 2 and 3 grade classes were part of the production.

In January, these same actors visited grades 3-5 reading and discussing stories dealing with bullying.

Mrs. Bruce's Child Development classes created and read Flannel Books to the area

Mrs. William's Advanced Chemistry students worked with over 100 4-6 graders teaching Kindergarten students. chemical reactions while helping them create crystals.

In November Mr. McCauley's ecology class traveled to Whitehall to teach water quality studies

Our big hurrah came in May as our Science Exploratory class and Mr. McCauley held the grand to area grade school students. opening of our Walking with Lewis and Clark natural garden. This was the culmination of a three year Serve and Learn America grant. Although we lost the last year of funds when the program was cut by the Obama Administration, I was able to write a Key Personnel grant which made up the deficit. Nine of our JHS seniors were able to see three years of work come into fruition as they welcomed 6^{th} graders and dignitaries form the community and state.

All of these classes represented weeks of work, study and preparation by our students and teachers. The teacher who have been actively involved have spent many hours designing programs that would fit the parameters of Service Learning because they believe in the learning opportunities it give our students as well as the grade school classes.

I would like to commend Mrs. Bruce, Mr. McCauley and Mrs. Williams for their enthusiasm for the program as well as Mr. Biehler and Mrs. Humphrey who presented in 2010.

Purpose statement: To objectively assess attitude, knowledge, and an understanding of diversity among the JHS School Board candidates.

Scoring tool: +, - or a check mark (to signify a response was given)

- 1. Why are you interested in the Jefferson High School Board?
- 2. What has been your involvement with education in your community?
- 3. What special strength would you bring to the JHS School Board?
